VESPER GAS LIGHT Established 1760. PETER LORILLIARD, The Cheapest, Most Brilliant, SNUFF AMD TOBACCO MANUFACTURER,

WOULD call the special attention of Grocers and Most Convenient Arti ial Light VV Druggists to his removal, and also the articles This manufacture, viz; IN THE WORLD.

THIS GAS is generated from Pure Coal Oil and for elegance, economy, safety and simplicity cannot be surpassed. The fixtures are in the same tyle as the ordinary Gas fixtures. Itsadvantages are: that it is a portable gas light unrivaled for brilliancy, cheapness cleanliness and simplicity, and can be used wherever artificial light is required. It is easy to regulate, and requires no trimming, and for attention, whatever, after light-ing. It is perfectly safe and free from explosion, and has no odor or smell while burning. The light and has no odor or smell while burning. The light can be made to burn with any degree of brilliancy, by turning a screw, and be increased instant-neously in volume from that of a candle to ten or twenty, by turning a valve as in ordinary gas.

The Vesper fas flame and fixtures precisely resemble, in form, those of coal gas, but in brilliancy and purity of light, it possesses a decried advantage over any coal gas. It requires no chimney, there is no need of daily trimming of a wick, and the construction of the fixtures is so simple that it is not liable to get out of order, and a child can mange it readily. The gas burned in the Vesper fix-Kitefoot, Tin Foil Cavendish, Pure Turkish.

MANUFACTURERS' ARTICLES. From Mr. Alexander Fall, Nashville.

From Mr. Alexander Fall, Nashville.

Mr. Thomas H. Lavlos—Dear Sir: I have been using the Vesper Gas Lamp, sold by you, since September list, and I am perfectly satisfied that it is one of the most economical, if not the most economical, as well as brilliant lights that can be had. It is easily managed, and I unhesitatingly recommend it to all out of the reach of gas.

ALEXANDER FALL. From Seabury & Co., Gas Fitters, Nashville. The Vesper Gas makes a brilliant and beautiful light, that is cheap and portable, and perfectly safe.

The construction of the Vesper Gas burner and the retort is so perfectly simple, that it cannot get out of order, nor can it explode.

The management of the burner is easily understood, and requires but little more atention to keep it clean and in good order than ordinary gas fixtures. The light produced by the Vesper Gas we consider fully equal, in every respect, to any other kind o T. J. SEABURY, H. S. PEACH. NASHVILLE, Dec. 1859.

From N. D. Cross, Nashville MESSES T. H. Taylor & Co.: I have had in use for about six months past, one of your Lights, and it gives me great pleasure to state, that I regard it as far superior to any other portable light that I have met with.

Its simplicity of arrangement, freedom from dauger Its simplicity of arrangement, freedom from dauger of explosion, cleanliness, steadness, and purity of light, are qualities that must recommend it to any one who writty it. It gives a light which to me, seems to be equal in brilliancy to the ordinary gas light.

Very Respectfully,

N. D. CROSS.
